

# Multan® 21-60 The Generalist – boron- and amine-free

**Multan**

**Multan® 21-60** Mineral oil based water-miscible cutting fluid for machining aluminum alloys, brass, steel and cast iron

**Multan® 21-60** offers the following benefits:

- Very high bacterial stability by the use of top quality raw materials
- Free of amine and boron, chlorine, sulphur and phosphorus
- No discoloration of aluminum alloys and non-ferrous metals. It is particularly suitable for machining brass
- Leaves no sticky deposits

**Achieves a high level of process economy:**

- Low initial fill concentration (5 – 10%) and lower top-up concentration (2,0 – 3,5%)

**Applications:**

Suitable for a broad range grinding operations: Reaming, tapping, thread-milling, turning, drilling, milling

Suitable for a broad range of machining operations: all aluminum alloys and non-ferrous metals, particularly suitable for brass, high alloy steel and cast iron

## Yes! I want to know more about **Multan® 21-60!**

You are interested in **Multan® 21-60** and want to know more about this product?
