

Press Release

July 23, 2020

Henkel's sustainability goals include sourcing 100 percent of electricity used in production from renewable sources by 2030.

Henkel joins Apple's Supplier Clean Energy Program

Düsseldorf: Henkel, a recognized leader in sustainability, announced today its participation in Apple's Supplier Clean Energy Program, which aligns with Henkel's long-term vision to become a climate-positive company by 2040, and to drive progress along its entire value chain. As part of this Clean Energy Program, Henkel joins other suppliers to power their Apple production with 100 percent renewable energy in the future.

"We're proud to partner with Apple and other global manufacturers to help lead efforts on contributing to climate protection," said Ulla Hüppe, Head of Sustainability Henkel Adhesive Technologies

Henkel recently published its [29th Sustainability Report](#), detailing its performance and progress in all dimensions of sustainability, including ambitious targets for climate protection. Henkel aims to reduce the carbon footprint of its operations by 75 percent by 2030 by continually improving energy efficiency and sourcing 100 percent of the electricity used in production from renewable sources by 2030. In addition, Henkel will leverage its technologies and solutions to help customers and suppliers in more than 800 industry segments save 100 million tons of CO₂ in a ten-year period up to 2025.

About Henkel

Henkel operates globally with a well-balanced and diversified portfolio. The company holds leading positions with its three business units in both industrial and consumer businesses thanks to strong brands, innovations and technologies.
