

▶ POLITIKA HENKEL MARIBOR

KAKOVOST & DPP

Proizvajamo kakovostne izdelke, ki ponujajo dodano vrednost s pomočjo:

- Kakovostne izvedbe v vseh naših procesih
- Njihova varna uporaba in odstranjevanje
- Njihova varna, zdrava in okolju prijazna proizvodnja
- Naša storitev, usmerjena k strankam
- Naša skladnost z vsemi zakonodajnimi zahtevami in
- Negovanje priložnosti ob izogibanju tveganjem

OKOLJE

Uporabljamo proizvodne tehnologije, ki nam omogočajo prihranek energije in pomagajo ohraniti naravne vire. Naše proizvodne procese upravljamo tako, da nihče - še posebej ne zaposleni, sosede in naravno okolje - ni izpostavljen nevarnostim, ki izhajajo iz naših dejavnosti. Zato je posebna pozornost namenjena proizvodnim vidikom, okoljski varnosti, zakonski skladnosti, manjši porabi virov in zmanjšanim emisijam in odpadkom.

VARNOST & ZDRAVJE

Zagotavljamo, da vsi naši procesi, tehnologije in projekti ne bodo ogrozili zdravja ali varnosti zaposlenih, niti zunanjih partnerjev ali drugih zainteresiranih strani. Da bi to dosegli, uvajamo vse potrebne ukrepe za preprečevanje poškodb pri delu in boleznih. Poleg tega se zavezujemo, da bomo odpravili nevarnosti, zmanjšali tveganja, spodbudili vključevanje zaposlenih in njihovih predstavnikov v postopek odločanja, izpolnjevali pravne in druge zahteve ter nenehno iskali možne izboljšave.

ENERGIJA

Prizadevali si bomo za ustrezno rabo energije v smislu nenehnega spremljanja in izboljševanja ustreznosti virov in energetske učinkovitosti naših sredstev in procesov. Nadalje se zavezujemo, da bomo izpolnjevali zakonske zahteve, zagotovili razpoložljivost informacij in potrebnih virov za naše energetske cilje in programe ter nenehno izboljševanje. Naš energetski sistem povezuje vso prizadevanje in odgovornost zaposlenih, dobaviteljev in partnerjev do skupnih energetske cilje skupine Henkel in poleg tega k ciljem energetske učinkovitosti celotne Evropske unije.

HENKEL MARIBOR POLICY

QUALITY & GMP

We produce quality products that offer added value through:

- Quality implementations in all our processes
- Their safe use and disposal
- Their safe, healthy and environmentally friendly production
- Our customer-oriented service
- Our compliance with all legislative requirements and
- Nurturing opportunities while avoiding risks

ENVIRONMENT

We use manufacturing technologies that allow us saving of energy and help to conserve natural resources. Our production processes are managed in such a way that nobody - especially not our employees, neighbors and natural environment - is exposed to any hazards arising from our activities. That is why special consideration is given to manufacturing aspects, environmental security, legal compliance, reduced resource consumption and reduced emissions and waste.

HEALTH & SAFETY

We assure that all our processes, technologies and projects will pose no threat for health or safety of our employees nor for external partners or for any other stakeholder. To achieve this, we are deploying all needed measures for prevention of work-related injuries and ill health. Furthermore, we commit ourselves to eliminate hazards, reduce risks, to encourage involvement of employees and their representatives into decision making process, to fulfil legal and other requirements and to continually seeking viable improvements.

ENERGY

We will strive for appropriate energy use in terms of continuously monitoring and improving suitability of energy sources and energy efficiency of our assets and processes. We are further committing ourselves to satisfy legal requirements, ensure availability of information and necessary resources for our energy objectives and programs and continual improvement. Our energy system is connecting all strains and accountability of our employees, suppliers and partners towards the common Henkel Group energy goals and moreover to energy efficiency goals of whole European Union.
