Announcement of membership between the AMGTA and Loctite 3D Printing to further expand Henkel's commitment to sustainability initiatives

Henkel joins the Additive Manufacturer Green Trade Association (AMGTA)

Düsseldorf – Henkel has joined the Additive Manufacturer Green Trade Association (AMGTA) to promote the environmental benefits of Additive Manufacturing (AM) throughout all stages of the ecosystem. The membership of the company's Loctite 3D Printing business underlines the commitment to sustainability initiatives and aims to open up discussions on the environmental benefits of additive design and foster the adoption of (AM) in the future.

The Additive Manufacturer Green Trade Associate is a non-profit, unaffiliated organization formed to provide member organizations with an opportunity and a platform to create a more sustainable future. The AMGTA seeks to promote the adoption of AM as an alternative to traditional manufacturing and educate the public and industry about these benefits. The AMGTA has granted membership to many industry leaders and ecosystem partners within 3D Printing.

Loctite 3D Printing's membership in the AMGTA supports Henkel's commitment to a greener future. The company aims to create more value for its stakeholders and to pioneer with innovative solutions for the good of generations. Loctite 3D Printing's move to join the AMGTA plans to build on this effort within the AM industry.
