Showcasing high-performance solutions for the mining industry

#SynergizedMoment: Henkel Presents Loctite as a Reliable Solution for the Mining Industry in Mining Indonesia 2023

Jakarta – The Indonesian mining industry has experienced many developments and challenges over the last few decades. In facing these challenges, equipment reliability and maintenance solutions are key. Henkel, a global leader in adhesive technology and a range of advanced protective coatings, confirms its commitment to support this sector by introducing Loctite products as reliable solutions for the mining industry at Mining Indonesia 2023.

With such a global reputation, Henkel's Loctite has become the first choice for the mining industry. At this exhibition, Henkel will display three of its flagship products: Loctite PC 9593, Loctite PC 7332, and Loctite 7337.

"Loctite products have supported mining industry businesses for more than 15 years in Indonesia. By minimizing downtime, increasing reliability, extending component life, and increasing work safety, we contribute to operational optimization. We are confident that Loctite can face various challenges with high-performance solutions, said Jimmy Purnama, Country Business Head for Indonesia, General Manufacturing and Maintenance, Adhesive Technologies Henkel.

In the exhibition, visitors are invited to experience #SynergizedMoment, a campaign from Loctite that aims to support businesses and users in achieving excellence at every step of maintenance, repair, and protection. Product demonstrations will take center stage, showcasing the performance, strength, and efficiency of Loctite products in facing the challenges of the mining industry.

At this exhibition, Henkel will showcase Loctite products that can withstand extreme temperatures, erosion, abrasion, and high impact. These advantages will extend component life and maintain structural integrity within the mining infrastructure.
