New webinar on the topic of “Food Safe Packaging”

Food Safe Packaging - Focus on Plasticizers

Food packaging safety is an issue to which Henkel – as the world’s largest adhesives manufacturer – is deeply committed. On its knowledge platform “Food Safe Packaging Portal”, Henkel presents a new webinar about “Food Safe Packaging - Focus on Plasticizers” on September 25, at 2:00 PM (CEST). In their webinar, Henkel experts Dr. Monika Tönnießen and Hartmut Büsching will give in-depth information on many aspects of plasticizers.

In the webinar the Henkel experts will talk about the definition of plasticizers and why they need to be considered. They will mention kinds of types and application fields as well as what the techniques and pitfalls are. An important topic will be the migrational behavior and assessments in current food regulations. They will also talk about Henkel’s solutions for packaging applications.

Participants will also be able to pose their questions live and online to the Henkel presenters while the webinars are still in progress. Those interested in participating can register at www.henkel.com/foodsafety. Once they have registered, they will also gain access to the Premium Area, which offers further webinars, whitepapers, a comprehensive glossary, and videos covering a range of key issues.

Henkel operates worldwide with leading brands and technologies in three business areas: Laundry & Home Care, Beauty Care and Adhesive Technologies. Founded in 1876, Henkel holds globally leading market positions both in the consumer and industrial businesses with well-known brands such as Persil, Schwarzkopf and Loctite. Henkel employs about 47,000 people and reported sales of 16.4 billion euros and adjusted operating profit of 2.5 billion euros in fiscal 2013. Henkel’s preferred shares are listed in the German stock index DAX.
